Kids’ nutrition, made easy (and tasty)

At the end of the day, it’s almost impossible to be sure that your child got the right amount of nutrients to support their body and brain. Unbalanced diets, too little exercise, and constant exposure to germs can wreak havoc on our kids’ nutrition, energy, gut health, and immune system strength. Too many kids are missing out on true health and happiness. But, as their parent, that’s all you really want: for them to be healthy and happy.

XFactor Kids™ is a chewable supplement that tastes great and works even better. Its powerful two-in-one formula combines a multivitamin (13 essential vitamins in bioactive forms) with clinically studied probiotics that supports healthy gut microflora.
