

# PLEXUS SLIM™ AND TRI-PLEX CLINICAL STUDY

SLIM AND TRI-PLEX HAVE SCIENTIFICALLY DEMONSTRATED THEIR SAFETY AND EFFICACY IN WEIGHT LOSS.\*

The frequency of people being overweight has risen dramatically in recent years. Numerous weight management products claim to help weight loss, however, few of these products undergo scientific research to demonstrate their claims.

In a multi-center, double-blind, placebo-controlled, randomized trial, 175 subjects were randomly given Slim, Tri-Plex, or a placebo. The study was done by an Independent Contract Research Organization in accordance with the International Conference Harmonization Guidelines on Good Clinical Practice. The results are illustrated below and show that both Slim and Tri-Plex are both safe and effective as a weight loss solution.<sup>1,2</sup>
