

# PLEXUS ACCELERATOR+™

## Want to turn up the heat?

Accelerator+ helps boost the body's metabolic rate and burn fat more efficiently with a number of active ingredients such as Higenamine and Green Tea Extract.\*

## YEARN TO BURN\*

Effective weight loss happens when the calories you take in are fewer than the calories you use up. Sure, a healthy diet is important, but the body's metabolic rate, or how quickly you burn calories, is just as important. If your metabolism is sluggish, it's not doing all it can to support your weight loss goals. A consistent healthy increase in metabolic rate can help melt those extra pounds away. This is where Accelerator+ delivers.\*

Its active ingredients include yerba mate, green tea extract, and higenamine that work together to kick your metabolism into high gear! More energy output means you can burn more fat. So whether you're doing 10,000 steps on the treadmill or carting the kids around, you can do more and feel good.\*

In a controlled, clinical human study<sup>1</sup>, results from yerba mate ingestion and exercise suggest enhanced benefits for weight loss and sports performance.\*

## LOSE SMARTER\*

You already work hard through a healthy diet, exercise, and lifestyle. Enhance your effort and benefit more, simply by adding Accelerator+. Lift your motivation, metabolic rate and burn fat more efficiently to help lose weight smarter, not harder.\*

## PRIMARY BENEFITS

- HELPS BURN FAT MORE EFFICIENTLY\*
- CAN HELP BOOST THE BODY'S METABOLIC RATE\*

## PLEXUS ADVANTAGE

- GLUTEN FREE
- 100% VEGETARIAN

## WHO SHOULD BUY THIS PRODUCT?

Anyone who wants to experience an increase in metabolic rate, fat burn efficiency, and physical exertion performance can benefit from Plexus Accelerator+.\*

## DID YOU KNOW

Exercise burns calories and boosts your metabolism. After the workout is over, your body can continue to burn calories throughout your day.

## FREQUENTLY ASKED QUESTIONS

### When is the best time to take Plexus Accelerator+?

In the morning, take up to 2 capsules.

<sup>1</sup> Alkhatib A. Yerba Maté (Ilex Paraguariensis) ingestion augments fat oxidation and energy expenditure during exercise at various submaximal intensities. Nutr Metab (Lond). 2014 Sep 2;11:42.
